THE FLASH PRODUCER

# T-LIGHT

## NEW PRODUCT

This is the latest model developed by Hungaroflash. T-light is only the beginning. The main power needs to be 63A/230V or phase to phase plus ground in US. The product is UL pending.

## CONTROL

It is easy for anybody to operate this unit. You can use the preprogrammed lightning effects or you can create your own in the T-LIGHT controller. We have prerecorded many waves of Thunderlights for your use. T-LIGHT is a fully rain PROOF fixture with stainless steel body. The flash length is variable from 1/24 sec to 3 Sec.

## PORTABILITY

T-LIGHT is quite small and will fit into the biggest PELI CASE container. Every unit has a second flashtube, which made by latest technology in lamp manufacture. The lamp is low pressure non-explosive XENON. The T-LIGHT unit is only
